# Enrichment in Year 5 & 6

Years 5 and 6 have enjoyed an array of exciting trips and visits over the last year, and they are looking forward to many more. Our enrichment programme brings learning to life through immersive experiences, hands-on history, and outdoor adventures.

In the Autumn term, Year 6 stepped back in time to take on the roles of evacuees, travelling to the village of Stibbington to experience where children were sent during World War II.

Meanwhile, Year 5 visited the National Space Centre to boost their understanding of their 'Earth and Space' Science topic. Year 5 also immersed themselves in the 19th century with a special Victorian Day, featuring traditional lessons and games to support their history unit.

In addition, children across both year groups learned about a host of professions during Careers Week, which featured a visit from an RAF pilot who provided a fascinating insight into his job.

In the Spring term, Year 5 pupils are looking forward to visiting the West Stow Anglo-Saxon Village to bring their history lessons about Anglo-Saxon Britain to life.

Year 6 will visit Cambridge to support their Geography topic about this famous university city. While there, they will tour the Cambridge University Botanical Garden and visit the Zoology Museum, supporting their Science topics on 'Evolution' and 'Animals Including Humans'.

During the summer, the Year 6 children will have the opportunity to attend a brilliant two-night residential trip to PGL Caythorpe in Lincolnshire. They will participate in three days of high-adrenaline outdoor activities, including Jacob's ladder, zip-lining, and high ropes courses.

Pupils in both year groups also have the option to participate in a wide range of sporting activities throughout the year. All pupils get the chance to try adventurous activities during Sports Week, including laser tag, archery, and the climbing wall. As a year group, we are regularly invited to Hampton College, which hosts local primary school sports festivals for football, netball, and cross-country. Our school football team continues to compete against other schools, including taking part in the Peterborough United EFL Kids Cup, and we are delighted to have an active Girls' Football team playing competitive matches as well.
