

December 2020

Dear Parents and Carers

Well... the children's first ever term at school is nearly over! The time has flown by! We are all so proud of how the children have settled into their school life and all of their achievements and we would like to share some of our favourite moments with you. Can you believe it was only a couple of months ago that the children started school? They have all worked so hard to settle into their new routines and to learn the school rules and expectations. It's been lovely to watch lots of new friendships develop and to see how happy the children are coming to school each morning.

The children have really enjoyed learning their letter sounds in our daily phonics sessions and experimenting with the new sounds in lots of fun ways in the classroom. The children often come in very excited telling us all about doing their homework and it is evident that they've been practising their sounds and writing letters lots at home, so thank you to all of you. The way that the children's reading and writing is coming along is fantastic and they love sharing all the wonderful things they do during play and learn with the rest of the class.

Our first topic was 'Autumn'. As I'm sure you heard we went on an autumn walk to see what we could find. The children loved exploring the school grounds and collecting objects to stick on their strip of paper. Back in the classroom we continued our learning about autumn by comparing autumn objects such as sticks, pine cones and leaves by size; and mixing autumn colours to paint trees with their leaves falling.

A lot of our learning this half-term has been based around festivals. Straight after half term we learnt about bonfire night. We learnt about Guy Fawkes and we made bonfire pictures on the iPad.

Our next theme was fireworks and Diwali. We enjoyed writing firework words for example 'pop', 'bang' and 'whizz' and we made Diwali cards. We loved making up firework dances in the outdoor area using the pom poms and the ribbons. We also enjoyed making our own rockets.

We were very proud of the Diya pots we made and we were excited to take them home.

We were very excited when Will Mabbitt did an online lesson with us, this was based on his book 'I can only draw worms'. Following on from the story we went on a worm hunt to see if we could find any worms in the forest school. We were very excited when we found worms but had to be careful to not hurt them when we were digging.

It really has been a great term for all of us in RHT. We would like to thank all of the fantastic teaching assistants who have worked so hard alongside us to help the children settle in and to support them with their work. And finally, we would all like to thank you too for all of your help and support. We hope you all have a wonderful Christmas holiday and we look forward to hearing all about what the children have been doing when we see them again in the New Year.

Mrs Thorold
