

Hampton Hargate Primary School

Disability Equality Scheme

May 2019 – May 2020

Introduction

Duties under Part 5A of the DDA require the governing body to:

- Promote equality of opportunity for disabled people: pupils, staff, parents carers and other people who use the school or may wish to; and
- Prepare and publish a disability equality scheme to show how they will meet these duties.

This scheme and the accompanying action plan set out how the governing body will promote equality of opportunity for disabled people.

Duties in Part 4 of the DDA require the governing body to plan to increase access to education for disabled pupils in 3 ways:

- Increasing the extent to which disabled pupils can participate in the school curriculum
- Improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services
- Improving the delivery to disabled pupils of information which is provided in writing for pupils who are not disabled.

1. School Ethos, Vision and Values

Hampton Hargate Primary School is committed to enduring equal treatment of all its employees, pupils and any others involved in the school community, with any form of disability and will ensure that disabled people are not treated less favourably in any procedures, practices and service delivery.

This school will not tolerate harassment of disabled people with any form of impairment and will also consider pupils who are carers of disabled parents.
(Links equal opportunity policy)

1.1 What do we understand by “disability”?

“Disability is a physical or mental impairment which has a substantial and long term adverse effect on a person’s ability to carry out normal day-to-day activities”
(DDA 1995 Part 1 para.1.1) this definition was amended and broadened in December 2005 under the 2005 Disability Amendment Act:-

- People with cancer or surviving cancer are now included, as are people with HIV and Multiple Sclerosis from the point of diagnosis
- For a mental impairment the need for it to be clinically well recognised has been removed.

Within the recommendations of the Disability in Education (DEE) all pupils with SEN and those with long term medical needs will be treated as disabled for the purpose of the Act and for equality. This is in addition to all pupils with long term impairments, which have a significant impact on their day-to-day activities.

This school therefore uses the social model of disability throughout our work. We understand that the definition of disability under the Act is different from the eligibility criteria for special educational needs provision. This means that disabled pupils may or may not have special educational needs. The school recognises that social, educational and behavioural difficulties are part of this definition.

1.2 Schools Strategic Priorities

See the disability access plan.

1.3 Strengths and Weaknesses

8 questionnaires were received, 7 from parents and 1 from staff. All questionnaires had positive scales.

One parent commented “My children both had IEP’s and I was given extra time to talk with their teacher which was arranged at different times to parents evening”.

The staff member felt we only partly gave children responsibilities such as being a playground friend and opportunities for involvement with the wider community such as helping local pre-school children when they visit.

2018-2019 no questionnaires were received back from staff or parents.

2. The General Duty

We will actively seek to:

- Promote equality of opportunity between disabled persons and other persons
- Eliminate discrimination that is unlawful under the Act
- Eliminate harassment of disabled persons that is related to their disabilities
- Promote positive attitudes towards disabled persons – This means not representing people in a demeaning way, and it also means not pretending they do not exist and not representing them anywhere at all
- Encourage participation by disabled persons in public life – it is also important to respect the wishes of disabled children in an educational setting so that they do not feel pushed into activities they do not wish to take part in
- Take steps to take account of disabled persons’ disabilities, even where that involves treating disabled persons more favourably than other persons.

(DDA2005 S.49A)

3. The Involvement of Disabled Children and Young People, Staff, Parents, Governors and User Groups

3.1 In preparing this scheme, disabled people were involved in the following ways:

A letter to parents, governors, staff and user groups. This was carried out in 2010 and was reviewed in June 2013.

3.2 In the longer term, disabled people will be involved in the following ways:

- Parental surveys give opportunities for disabled people to disclose their disability. Outcomes from these will be analysed to identify any issues relating to the person's disability.
- Pupil surveys and interviews as part of the normal cycle of self evaluation are also used to identify any issues relating to a child or young person's disability.
- Disabled staff have regular opportunities to discuss how the school can best enable them to work.

3.3 The information about disabled staff and pupils will be used to assess:

- The effect of our policies and practices on the recruitment, development and retention of disabled employees.
- The effect of our policies and practices on the educational opportunities available to, and achievements of, disabled pupils.

3.4 The information about disabled parents, governors and user groups will be used to assess:

- The effect of our policies and practices on the involvement of parents in their child's education.
- The effect of our policies and practices on the recruitment and retention of governors and their ability to take a full and active part in governors' activities
- The effect of our policies and practices on the involvement of disabled users in community activities.

4. How we will meet the General Duty and Specific Duty

The production of this disability equality scheme provides us with a framework for integrating disability equality into all aspects of school life and demonstrates how we are seeking to meet the specific duty i.e. to produce a Disability Equality Scheme for our school.

4.1 The Building

Hampton Hargate Primary School opened in September 2000 and all facilities are on a single level. There are no raised steps within the building and all doors are wide enough to provide access in a wheelchair. There are two disabled toilets available for pupils and visitors. The building is well lit and movement throughout the school is manageable by all, with wide and uncluttered pathways. The Access Audit states that "Access for visitors with disabilities is good and only minor modifications are required."

4.2 Provision for pupils

A register of pupils' needs/disabilities is maintained by the SENCO and regularly updated. Parents/carers also received a letter requesting notification of any disabilities not previously registered with the school. To ensure access to all areas of school life the pupils' needs are catered for as follows:

- Asthmatics – named inhalers, with the asthma card, are stored in a tray in the classroom. Office staff maintain a register.
- Diabetics – at the present time there are two in the school, Yr 2 and Yr 6. The pupils are monitored by a TA and the parent comes into school at lunchtime carry out injections. One to one supervision is provided for these pupils during the lunch break.
- Epi-pen users – the pens are stored in the classrooms and staff have been trained in their use. The parents are responsible for ensuring that the pens remain up to date.
- Autism, Dyspraxia and Dyslexia – pupils with these disabilities have their individual learning programmes and also have access to a Sensory Circuit Programme at the beginning of each school day.
- Impaired Vision and Hearing – teachers ensure that pupils with these disabilities are in the best position for seeing and/or hearing. If required large print is provided.

Pupils with any disability are not excluded from educational visits. A risk assessment is carried out at the pre visit and a TA or parent helper ensures that all pupils are able to benefit from the visit.

4.3 Provision for Staff

It is our aim to:

- Attract a wide field for recruitment, including disabled people.
- Retain the experience and skills of employees who become disabled during their working life
- Develop in-house expertise about what disabled staff and/or pupils may require.
- Provide role models for children and young people.
- Help foster good relations with all employees by showing that everyone is valued and treated fairly.

4.4 Provision for Parents/Carers

It is our aim to:

- Use disabled people's preferred means of communication when contacting parents/carers, meeting with them or sharing information with them.
- Ensure disabled parents are encouraged to meet with teachers to discuss their child's progress and that every reasonable step is taken to remove barriers to

attending parents' evenings. Where attendance is not possible because of a disability, make alternative arrangements.

- Give disabled parents priority when arranging events and meetings.
- Give disabled parents preferential parking rights.

4.5 Provision for Governors

It is our aim to:

- Ensure accessibility to meetings and other governors' activities for disabled governors, consequently allowing representation of disabled people on the governing body.

4.5 Provision for User Groups

It is our aim to:

- Ensure that any disabled member of the community, who is part of a user group, should not be restricted in participation within that group's activities.
